OBJECTIVE

Computer Science graduate with hands-on experience developing full-stack web applications using Python, Django, React, and REST APIs. Skilled in building scalable backend systems, responsive frontend interfaces, and database-driven applications. Passionate about writing clean, maintainable code and solving real-world problems through efficient software solutions.

SKILLS

- Languages: Python, JavaScript
- Frontend: HTML5, CSS3, Bootstrap, React Js
- Backend: Django, Django REST framework(DRF)
- Database: MySQL, PostgreSQL
- Tools: Git, GitHub, VS Code, Postman
- Core Concepts: DSA, OOP, REST APIs, DBMS, OS

PROJECTS

Django E-Commerce Web Application

- Developed a full-stack eCommerce web application using Django, PostgreSQL, HTML, CSS, and JavaScript.
- Implemented user authentication, product catalog, cart system, and order management features.
- Designed modular backend architecture using Django apps, URL routing, migrations, and context processors for scalable development.
- Created an admin dashboard to manage products, users, and orders efficiently.

Job Portal Web Application

- Built a full-stack Job Portal platform using React (frontend) and Django REST Framework (backend).
- Developed RESTful APIs for user authentication, job posting, job browsing, and application submission.
- Implemented application tracking system with job status workflows.
- Designed responsive user interfaces using React Router and Tailwind CSS for smooth navigation.
- Integrated backend APIs with React frontend for seamless data communication.

EDUCATION

Bachelor of Science (B.Sc) – Computer Science

2022 – 2025

manonmaniam sundaranar University

CERTIFICATES

- HackerRank – Python (Intermediate) Certification
- AI Implemented Python FullStack Certificate (Login360)
